Bluetooth headset and stereo headphones

RELEASE YOUR JABRA

Jabra

Jabra BT 325s

Your music. Your call.

Have it both ways

The Jabra BT325s connects to both your music player and your Bluetooth® mobile phone through one cool headset. So now you can enjoy your music and know you're not going to miss out on any call.

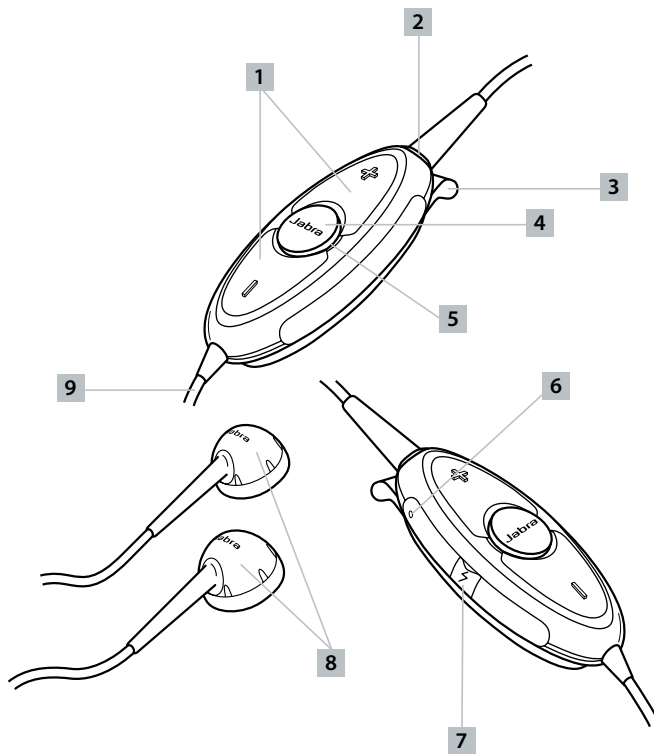

Pure convenience

Music fades when a call comes in, and you can answer or reject your call by simply pressing or tapping the answer/end button. The best part is that, when you've answered it, you don't have to do a thing. Your call is transferred via Bluetooth from your mobile phone to your music headphones. When you've finished talking, the music continues automatically.*

In control

With the Jabra BT325s headset, all advanced Bluetooth mobile phone controls are at your fingertips. You can redial numbers, hold and reject calls*, etc. – all without accessing your mobile phone. You can also exchange the in-the-box headphones with another set – and still enjoy the wireless connection to your mobile phone!

Revolutionize your mobile lifestyle. Release your Jabra.
